Tech-driven Business Analyst at Reckitt with full-stack development experience and a live app in production. Background spanning data automation, AI solutions, and product development across Egypt & North Africa.

Experience

Reckitt Business Analyst — Egypt & North Africa	Jul 2025- Present
• Developed automation scripts and workflows to streamline data collection and processing, cutting turnaround time by 75%. • Engineered and optimized analytical datasets, reducing refresh and load times by 90% and enabling faster decision-making.	
Freelance AI Automation & Receptionist Solutions Developer	Nov 2025 - Present
• Generated client revenue through end-to-end delivery of AI receptionist and automation products, from scoping to deployment.	
AUG Pharma Information Technology [Intern]	2024
• Provided technical support and troubleshooting for internal systems, hardware, and software across departments.	
AT&T & Verizon Customer Support Specialist [Part-Time]	2023
Credit Agricole Technical Support [Intern]	2023

Education

Oxford Brookes University - Oxford, UK	Graduated 2025
BSc (Hons) Computing – First Class Honors , GPA: 4.0	

Skills

- **AI & Automation:** AI chatbots / AI receptionists, Python automation, Power Automate, workflow orchestration, n8n.
- **Programming:** Python, JavaScript, Dart, C++, SQL (MySQL), R | React.js, MERN Stack, Flutter, REST APIs
- **Cloud & DevOps:** Firebase, Supabase, MongoDB, Azure DevOps, CI/CD, Git
- **Business Analysis & Product:** Requirements gathering, stakeholder management, Power BI, Excel, documentation

Projects

Dawri Al-Abtal — Sales KPI Gamification App (Flutter / Firebase)	2025
• Independently developed a full-stack Flutter/Firebase app, live on the Play & App Store, actively used by Reckitt Egypt. • Gamifies sales rep KPIs as football matches: supervisors manage squads, daily goal outcomes are determined by achievement growth vs. the opposing team, with live leaderboards, league standings, and an interactive field view.	
Voxera AI — AI Receptionist & Website	2025
• Designed and built VoxeraAI.com, a production-ready AI receptionist website using React. • Created an AI Voice Receptionist to handle customer inquiries, automate responses, and support lead capture.	
FitPose — Real-Time Workout Form Correction App	2024 – 2025
• Built a Flutter mobile app using Google ML Kit Pose Detection for real-time exercise form correction. • Integrated Supabase backend for workout history and progress tracking.	

Certifications & Achievements

- | | |
|---|---------------------|
| • IBM Product Manager Professional Certificate , IBM | 2025-Present |
| • 2nd Place Winner , First-Ever Nationwide Fintech Competition [Central Bank of Egypt] | 2023 |
